

Additional power brush for all Puzzi 400 versions to increase the area performance of approx 35%

Standard accessories:

- 3 fan jet nozzles
- Motor driven brush

Order no.: 1.735-121.0

**Technical data**

Max. area performance (m ² /h)	110
Air flow rate (l/s)	-
Vacuum (mbar/kPa)	-
Spray rate (l/min)	-
Spray pressure/ram pressure (bar)	-
Tank fresh/dirt water (l)	-
Power rating fan (W)	-
Power rating, pump (W)	-
Power rating brush (W)	75
Weight (kg)	9
Dimensions (L x W x H) (mm)	1150x345x910

Details

Description

The PW 20 power brush has been developed as an optional accessory for the puzzi-profi K professional spray extraction cleaner to intensify the deep-cleaning process. This rotary brush enhances the normal cleaning performance by about 35%. It enables you to spray, brush and vacuum in a single pass and improves cleaning efficiency. Three fan-jet spray nozzles ensure uniform application of solution over the whole width of the brush. High area coverage since cleaning is effected over the full brush width of 300 mm, right up to walls and into corners. Smooth-running castors for more operator convenience— easy-to-use quick-action couplings— 10-metre connecting cord for plenty of reach. Time-proven drive motor, radio interference suppressed, with integral overload cut-out.

Application

1. Spraying Water and cleaning solution dissolve even the most stubborn stains. 2. Brushing Roller brush opens carpet pile, dislodges the dirt and washes it away thoroughly but gently. 3. Vacuuming (drying) Dirt water is vacuumed away at the same time through the suction duct. Carpet is dried in this process. Residual moisture content is low.
